

TRUST GOES OUT
OF EXISTENCE

Standard Oil Company Obeys Supreme Court Decree.

STOCK TRANSFERS COMMENCE

Work of Apportioning the Company's Holdings in Over Thirty Subsidiary Concerns Will Occupy at Least Three Months and the Readjustment Will Therefore Not Be Complete Prior to Dec. 1.

New York, Sept. 1.—The Standard Oil company of New Jersey, the corporation which has been the storm center of anti-trust agitation throughout the country for years, passed out of existence, as far as its present form and functions are concerned.

This famous corporation will cease officially to carry on its operations as the head of a vast organization, whose activities extend into almost every part of the world. In obedience to the decree of dissolution of the supreme court it relinquished its control of the subsidiary concerns.

With the end of the business day the company's transfer books containing the list of stockholders closed and the stock of its subsidiaries will be distributed among the stockholders in the parent organization as on record at that time.

The work of apportioning the company's holdings of the stock of more than thirty subsidiaries affected will occupy at least three months, it is expected, so that the readjustment will not be complete prior to Dec. 1.

Standard Oil stock was traded in at about \$625 per share, transactions being restricted to cash dealings of the necessity of effecting transfers.

An official of the company said that the only element of doubt as to the general effect of reorganization upon the present stockholders lay in the ability of the constituent companies, operating independently, to produce as large a total of profits as has been possible under the present form of management.

MARKHAM MEETS UNION MEN

Illinois Central President Refuses to Treat With Federation.

Chicago, Sept. 1.—C. H. Markham, president of the Illinois Central railroad, took a hand in the conference with union representatives in which the men seek to induce the road to recognize the newly organized federation. He apparently was unwilling to recede from the road's previous stand

CHARLES H. MARKHAM.

of treating only with the representatives of the unions involved.

The labor men here let it be known that their future action will depend on the instructions they receive from their presidents and that those instructions probably will depend on the outcome of the conference with Mr. Kruttschnitt.

Gives Life to Save Child's.

Cleveland, Sept. 1.—Clark Presley, a coal wagon driver, jumped in front of a Shore Line interurban car at Nottingham in an attempt to save Ralph Fussellton, three years old, from being run over and was struck and instantly killed. The child sustained a broken leg and internal injuries, but probably will live.

PEANUT ROASTER IS DEADLY
Three Fatally Injured When Machine Explodes.

Newark, O., Sept. 1.—Three persons were fatally injured and the lives of dozens of others were put in peril when a peanut roaster, which was being operated at a prominent street intersection, exploded and scattered fragments of the machine over a distance of two city blocks.

Edward Grady, a machinist, who was walking on the street a block away, had his head split open when he was struck by the flying cylinder head.

As Pritto, a Greek who owned the machine, also was mangled.

AGED PARENT ON
WITNESS STAND

Henry C. Beattie, Jr., Weeps While Father Testifies.

BATTERS COUSIN'S EVIDENCE

Defense Introduces Several Witnesses to Cast Doubt Upon Story Told by Paul Beattie—Prisoner's Father Talks in Low Tone and Prosecuting Attorney Waives Opportunity to Cross-Examine Him.

Chesterfield Courthouse, Va., Sept. 1.—Henry Clay Beattie, Jr., indicted for the murder of his wife, sobbed like a child when his gray haired father in a low, trembling voice told of the domestic felicity of his son and the slain woman, Louise Owen Beattie. It was the first time the stoical calm of the prisoner's countenance had given way during the trial.

The testimony of the father in behalf of his son came as the dramatic close of a long day's battle by the defense against the evidence heaped up by the prosecution.

Battering constantly against the testimony of Paul Beattie, cousin of the prisoner, as to the purchase of the gun, his delivery of it to Henry and his subsequent conversations with the accused the defense introduced several witnesses to cast doubt upon the veracity of Paul.

It emphasized that point when it produced David D. Beattie, Paul's grandfather and the uncle of Henry, who testified Paul's character was not good. It was another intense period in the trial, for with apparent regret the aged man told of his grandson's shortcomings.

The most surprising refutation against Paul's testimony came when Ernest H. Nebitt said he saw Paul Beattie Sunday, July 16, on the bridge where he worked, handling a single barreled shotgun. Paul had maintained ever since the coroner's inquest he disposed of the shotgun the day he bought it, Saturday, July 15, by giving it to Henry. Subsequently the defense brought many witnesses to tell of Mr. Nebitt's good character and brought others to attack Paul's veracity.

"Biggest Liar in Town," E. H. Lewis, an employee of the Beattie store in South Richmond, declared people spoke of Paul Beattie as "the biggest liar in town."

Henry Clay Beattie, Sr., father of the accused, was interrogated for an hour. As he stepped to the witness stand the prisoner's face flushed.

The gray haired man, his face deeply wrinkled and pale, spoke in a voice scarcely above a whisper. Counsel leaned forward over the bench to listen to him. He talked with great effort, repressing an ever recurrent emotion. He told of how his life had been saddened by the death of some of his children, how Henry in his infancy had been neglected because twins came into the family during his boyhood and described how on this account, and the death of his own wife, he had grown closely attached to his son. He described the strong love that had existed between Henry and his wife, testifying he himself grew to love his daughter-in-law as one of his own children.

"When her baby was born," said Beattie, speaking of the dead woman, "it was like starting life over for me to see the grandchild. It drew us all together very much."

The father spoke highly of his son's character and controverted the testimony of many witnesses for the prosecution that Henry showed no signs of grief after his wife's murder. He declared Henry sobbed and moaned almost all night after the tragedy.

When Beattie had finished and was ready for cross-examination by the prosecution Mr. Wendenburg waived the opportunity. It was the first time during the trial his word occurred.

Life Sentence at Eighty.

Janesville Wis., Sept. 1.—Louis Keller, eighty years old, was sentenced to life imprisonment at Waupun for shooting Mrs. Johanna Hirschkeon June 21 last.

BLAME PELLAGARA UPON GNAT

Scientists Say Insects Spread Disease in Kentucky Mountains.

Lexington, Ky., Sept. 1.—The buffalo gnat has been fixed upon by Henry Garman, a government bacteriologist and entomologist, as the cause of the mysterious disease, pellagra, which has been spreading in the mountain regions of Kentucky.

Mr. Garman has been conducting investigations in Whitley county, where the pellagra cases are most numerous, and has been aided in his researches by Dr. Grim, a government expert.

Just how the gnat communicates the disease is not known, but both scientists believe they are on the right track and eventually will find a cure for the disease, which so far has baffled physicians. The buffalo gnat exists in great numbers all through the South.

JOHN A. DIX.

Norman Mack Mentions Him as Presidential Possibility.

DIX MACK'S LATEST NOMINEE

New York Governor Put Forward as Presidential Possibility.

Buffalo, N. Y., Sept. 1.—Chairman Norman E. Mack of the Democratic national committee, in the September number of his Democratic magazine National Monthly, presents Governor John A. Dix of New York as a Democratic presidential possibility.

Governor Dix is the fifth prominent Democrat to be brought forward by Chairman Mack in a series of articles on Democratic presidential possibilities. The others are Governor Judson Harmon of Ohio, Governor Woodrow Wilson of New Jersey, Governor Thomas R. Marshall of Indiana and Governor Eugene N. Foss of Massachusetts.

FRENCH MOBS RESENT
HIGH COST OF LIVING

Parades and Riots in Many Sections of Republic.

Douai, France, Sept. 1.—Banners bearing the inscription, "Butter at 30 sous or revolution," were borne in a procession of 2,000 persons, mostly women, here. As they marched the manifestants sang revolutionary hymns.

Paris, Sept. 1.—A campaign against high food prices was started here. Ten taxicabs, their occupants carrying devices on which were inscribed demands that the cost of necessities be lowered, paraded through the Champs Elysees and other thoroughfares.

Open agitation, with some violence, is going on in thirty or forty towns and cities in the northern departments and the movement is spreading to other parts of France.

Energetic demonstrations are being held at Orleans, the capital of Loiret.

St. Quentin, France, Sept. 1.—Several riots over the high price of food occurred here. The mob wrecked and pillaged several butcher shops and set fire to one of them in spite of the efforts of the police and soldiers to maintain order. An urgent request has been sent to the government for additional troops.

Lille, France, Sept. 1.—The General Confederation of Labor has taken up the agitation against the high price of food. Six thousand metal workers voiced their protest by parading through the streets.

BRYAN'S OPINION OF TAFT

Says He Has Surrendered Farmers to Protected Interests.

Lincoln, Neb., Sept. 1.—"The president's reasons for vetoing the tariff revision measures passed by congress were lamentably weak. The farmers ought to remember that the president has deliberately surrendered them to the greed of the protected interests and has cast his lot with those who furnished his campaign funds. The president's veto of the cotton reduction bill will furnish further evidence of the subservience to the interests. No real relief is to be hoped for from him."

William Jennings Bryan thus sums up his opinion of Taft in an extended review of the work of the special session.

Wigs.

In the early ages of the Christian era the fathers of the church futilely protested against the use of wigs.

Five Governors to Attend.

Columbus, O., Sept. 1.—With the acceptance of Governor Marshall of Indiana of an invitation to the Capitol centennial celebration to be held here Sept. 15 five governors have agreed to be present. Acceptances were previously received from the governors of Illinois, Minnesota, Michigan and Wisconsin, all of which states were represented in the North-western territory.

RADICALS FIGHT
TO RULE PARTY

Progressive Democrats Organize to Control Convention.

IS MR. BRYAN BEHIND THEM?

Will Insist on Initiative, Referendum and Recall—Sims Says Progressive Principles Were Stolen From the Populists—Senator Heyburn Breaks Out Again—Children's Bureau Bill May Pass.

By ARTHUR W. DUNN.

Washington, Sept. 1.—[Special.]—A great struggle has commenced for control of the Democratic national convention next year. In some respects it resembles the contest of 1896, when the silver men of the party started out to get control of the convention and nominate a silver man as well as make a silver platform. This time the fight is to secure a radical or progressive candidate and a radical platform.

By radical and progressive it is meant that the initiative and referendum, the recall and such other measures as will give the people direct control of the office machinery of the government and the states and also the legislation shall be adopted.

The men who are pressing the movement are earnest, sincere and constantly active. That was true of the silver men in 1896. An active campaign will do much in this direction, especially as it is backed by William J. Bryan, who has often said that the platform was more important than the candidate.

No Congressional Declaration.

It cannot be claimed that there has been any real congressional declaration on this subject. There was much discussion of the Arizona constitution in both house and senate, and there were very radical views expressed by many Democrats. But neither the initiative and referendum nor the recall was endorsed by any vote. The Democratic idea was that Arizona had a right to have such a constitution as the people wanted, whether it contained these radical innovations or not.

So Another "Steal."

It was Congressman Sims of Tennessee who declared in the house that in 1896 the Democrats "stole everything that was good from the Populist party, and the Republicans came along and stole from us nearly everything we had stolen from the Populists." The initiative and referendum was one of the things that were not taken at that time, nor has it yet been appropriated. Neither has government ownership of railroads, although Mr. Bryan has indicated a desire to acquire both for the Democrats. I once heard him tell a distinguished gathering of prominent Democrats that he would "drive every man out of the party who does not accept the initiative and referendum."

If Bryan has a large control in the next convention Sims may witness another of the "thefts" which he spoke about so glibly not long ago.

Mild Senator Heyburn.

"I do not want to be harsh," remarked Senator Heyburn, speaking of the "isms" which he has so often condemned. Then he went on to call the men who support them "children" and a "lot of carpenters undertaking to tamper with the work of trained builders." "Are men going mad?" he asked. He said their creed was that of socialism, and much to the same effect. Oh, no—the Idaho senator did not want to be harsh; he simply wanted to bat 'em over the head with a club.

Seeing the Army Posts.

Every secretary of war acquires the wanderlust. Secretary Dickinson went to the Philippines and many other places. Secretary Stimson has been to Panama and Cuba and is soon to make a grand tour of the country and visit the different army posts. Every secretary likes to see things, especially as a generous government pays the expenses of these inspection tours.

Against Expositions.

Several times during the session bills relating to expositions of one kind or another were brought up in the house, and it was made manifest that the temper of congress is against government aid to expositions of any kind. One reason why San Francisco took the Panama exposition from New Orleans was because the far western city promised not to ask any government appropriation. Every time any exposition measure, no matter how trivial, was brought forth the man who was urging it was forced to promise that no government appropriation would be asked.

Children's Bureau.

Former Senator Beveridge of Indiana devoted several years of his life in the senate toward securing legislation to ameliorate the condition of child labor. Senator Borah introduced and reported from his committee just before the adjournment of the session a bill providing for a children's bureau in the department of commerce and labor to investigate questions relating to the employment of children and other matters pertaining to the welfare of children. Similar bills have been introduced in the house and are favored by the labor organizations of the country. There is a very great possibility that such a measure will pass next session.

Shetland Ponies.

That hardy little creature, the Shetland pony, is longer lived than the horse.

W. B. HEYBURN.

Idaho Senator Arranging to Probe Stephenson's Election.

PREPARE STEPHENSON QUIZ

Senator Heyburn Says It Will Be Over by Oct. 31.

Milwaukee, Sept. 1.—Senator W. B. Heyburn of Idaho arrived in Milwaukee to make preliminary arrangements for the investigation of the election of Senator Stephenson, which will begin Oct. 2.

"The committee will meet in Milwaukee Oct. 2 to take up the investigation," said Senator Heyburn. "How long it will take of course I cannot say. Still I think we ought to complete our work by the end of October."

Until the committee meets in Milwaukee it will not be known whether the investigation will be confined to the election of Senator Stephenson or whether the primary nomination will be included in the investigation. Senator W. B. Heyburn said if the investigation extends to the primaries there is a prospect of the committee being here for six weeks at least.

GOVERNMENT AFTER
MAYOR OF CASS LAKE

Will Be Arrested on Charges of Conspiracy.

Bemidji, Minn., Sept. 1.—Dr. D. E. Dumas, mayor of Cass Lake, who at present is being held under a \$10,000 bond as the result of charges growing out of the robbery of a store and post-office at Puposki on the night of June 16, will be placed under arrest again by the federal authorities on charges of conspiracy to rob a United States postoffice, preferred by the government.

It was planned to arrest Dr. Dumas Thursday afternoon, but the Cass Lake man came to Bemidji and the deputy United States marshal, who went to Cass Lake to serve the warrant, was temporarily delayed.

The father of Dr. Dumas has been summoned from Minneapolis and will be prepared with other defenders of his son to furnish bail in any amount required.

CHARGES LUMBER COMBINE

Government Files Suit Against Michigan Association.

Detroit, Sept. 1.—Charging conspiracy to restrain interstate trade and commerce in lumber and its products United States District Attorney Frank Watson filed a bill in the United States circuit court here to enjoin the Michigan Retail Lumber Dealers' association, the Scout Publishing company of this city and the Lumber Secretaries' Bureau of Information of Chicago from further alleged unlawful business methods.

It is alleged that most of the retail association's endeavor is to prohibit manufacturers or jobbers from shipping to competitors who are nonmembers of the organization.

The Scout Publishing company issues the Scout, a lumber trade journal. It is charged that from time to time editorials were published advocating the principle of the retailers' dealing only with manufacturers or jobbers who observed the ethics of the retailers' organization.

Man Killed by Sneezing.

Oklahoma City, Okla., Sept. 1.—Stephen Froelich died in a hospital here as a result of hemorrhage started by sneezing. He began to sneeze Aug. 24 and at the same time his nose began to bleed. Physicians could not check the bleeding and death resulted from loss of blood.

LODGE'S SON WEDS NURSE

Senator and His Family Are Present at the Ceremony.

Boston, Sept. 1.—John Ellerton Lodge, son of Senator Henry Cabot Lodge, was married at the rectory of the Cathedral of the Holy Cross to Miss Mary Catherine Connolly by Rev. Father Flinnigan.

The wedding, the culmination of an attachment formed when Miss Connolly acted as nurse for the senator's son during his illness in a Boston hospital, was witnessed by Senator Lodge and Representative A. P. Gardner, his son-in-law, and their families.

DOES NOT FEAR
RADICAL LAWS

Senator La Follette Addresses Pennsylvania Farmers.

PEOPLE ARE CONSERVATIVE

Wisconsin Statesman Says There Is Nothing in It to Be President for Honor Alone—Would Rather Play His Present Part Than to Have the Place Some Men Who Have Been President Will Occupy in History.

Williams Grove, Pa., Sept. 1.—Senator La Follette of Wisconsin, speaker of the day at the mass meeting here under the auspices of the State Grange, Patrons of Husbandry, only casually mentioned the presidency and did not discuss reciprocity and other national issues.

The reference to the presidency was made toward the close of the senator's speech. In telling of battles for his principles in his home state he said he could have been governor before he was elected if he had desired the place for the honor alone.

"But," said he, "what is it to be governor or president for the honor of it alone?"

After a pause he continued:

"As to the presidency I will say only this: Most anybody would like to be president. Most anybody who has a good, broad conception of the conditions that exist in this country would like to be if he could work things out and bring government back to the people of the United States."

"I would rather have the little part I'm going to have—and nobody on earth can take it away from me—the little part I'm going to have as one of the men who help to make that movement the fundamental thing in the life of the American people."

"I would rather have that and the place it will give me in history and what there will be as a legacy to my children than to have the place that some men who have been president will have in the history of this republic."

The speaker said the people need not fear the initiative, referendum or recall.

"They need fear no radical legislation," said he, "because you can't enlist a majority of ninety millions of people in anything unless it is right. The American people are the most conservative on earth."

Wisconsin, he asserted, is the one commonwealth in the Union where there is government in the interest of the public. He reviewed railroad legislation and other subjects connected with its recent political history and after discussing the referendum and recall was about to close when some one in the audience called out:

"How about the recall of judges?"

"It's just the same for judges as it is for any other official," retorted the speaker.

TAFT PLEADS FOR REFORMS

Urges Changes in Present Judicial Procedure.

Boston, Sept. 1.—Addressing the members of the American Bar association here President Taft urged the lawyers to take up the work of reform in judicial procedure, denounced the recall as applied to the judiciary and urged the adoption of the arbitration treaties negotiated with France and Great Britain.

The president's remarks were greeted with enthusiasm by the 800 lawyers present. The greatest demonstration came when the president advocated increase of salaries for federal judges from \$15,000 to \$25,000 a year and when he referred to the recall as a "wild theory."

STANLEY ARRIVES AT DULUTH

Will Look Particularly Into Freight Rates on Iron Ore.

Duluth, Sept. 1.—Congressman A. O. Stanley, chairman of the committee which is investigating the United States Steel corporation, arrived here accompanied by R. W. Woolley, special investigator, and P. H. Nelson of Duluth, who met Mr. Stanley in Chicago.

Mr. Nelson is a prominent mining man who is interested in iron as well as copper and lead mines. In other parts of the country the special matter for investigation in Minnesota by Mr. Stanley is the freight rate on iron ore. He will leave for the Mesabi and Vermilion ranges to inspect the steel corporation's roads and the iron mines.

LABOR UNIONS THANK JUDGE

Des Moines Jurist Settled Strikes to Their Satisfaction.

Des Moines, Sept. 1.—Judge Lawrence De Graff, who handed down the injunction which ended the Des Moines street car strike, has been flooded with resolutions from labor organizations all over the country thanking him for his action in bringing about the settlement of the difficulties between labor and capital.

He received resolutions from head officers of the International Association of Steamfitters at Memphis, Tenn. A few days ago he received a letter from the United Mine Workers' headquarters at Pittsburgh.

SUGAR PRICES STILL GO UP

Advanced 30 to 40 Points in the Last Four Days.

New York, Sept. 1.—There was a further advance in both raw and refined sugar. The American Sugar Refining company quoted \$6.25 a hundredweight for standard granulated and a 10-point advance on other grades, while other refineries advanced 20 points for the day, making granulated \$6.35.

Although raw sugar, Cuba centrifugal, was quoted at \$5.36 at the close this figure was purely nominal, as none was to be had at the price.

In the last four days refined sugar has been advanced 30 to 40 points and indications point to still higher prices as supplies are very light.

BASEBALL WAR IS BREWING

Commission Rejects Demands of American Association.

Cincinnati, Sept. 1.—In a finding, minus all ifs and ands, and as plain as it is firm, the national baseball commission not only rejected every demand made upon it by the American association, but went further in stating that if the American association decided not to operate under the rules of organized baseball teams would be placed in every city on that circuit.

While no mention of a league to battle with the American association was made yet it was implied to an extent that could not be misunderstood.

The American association is given until Sept. 19 to give an answer to the secretary of the commission and upon this answer will hinge the question that now stands out paramount in the minds of baseball men, namely, "will there be a baseball war?"

PLACE BAN ON FOREIGNERS

Proposed Substitution of Americans for Those in Consular Service.

Washington, Sept. 1.—The question of supplanting with American citizens the great number of foreigners who hold positions in the consular service of the United States will be taken up with congress at the next session by the state department.

These foreigners are employed as clerks and in some instances occupy the relation of vice consul. The custom of bringing foreigners into the service has grown, it is said, because of the impossibility to procure Americans for this clerical force—far away from home, with a maximum salary limitation of \$1,000.

News from where Fashion Reigns

Mr. Murphy writes:-

Just a hint of what the new season promises. First of all simplicity, simplicity. 28 inch coats, with shoulders and sleeves like an Englishman's coat. Once in a while an under-arm panel to shorten the waist line. Three times out of four trimmed with velvet, for this is to be a velvet season.

High band skirts that fall in a straight line—far from full, yet not clinging. With panel back and front and sometimes with an inverted plait in the side gores.

Materials? Rough tweeds and fine serges are among the better ones.

These will all be shown at Murphy's Smart Shop

TEACHERS IN CITY SCHOOLS

upt. W. C. Cobb Furnishes a List of the Teachers as Assigned to the Various Buildings

SCHOOLS HAVE BEEN IMPROVED

ew Heating and Plumbing in the Whittier; New Auditorium in the High School

The city school will open for the year's work on Tuesday morning, Sept. 5.

The following furnished by Supt. W. C. Cobb is an approximate assignment of teachers to the several buildings, subject, however to necessary changes.

Washington building: High school department. L. C. McCarty, principal; Miss McCoy, English; John McGee, commercial; Miss Bertha Rich, Latin; Miss Long, science; Miss Elliott, mathematics; Miss Nichol, history.

In the grades of the Washington school are Miss Margaret Somers, Miss Genevieve Smith, Miss Adeline McAnnis, Miss Louise Stuart, Miss Gordon, Miss Yeo, Miss Scott, Miss Rankenson or Miss Baker.

Lincoln school: Miss McMahan, Miss Kathleen Rounds, Miss Eloise Smith, Miss Bessie Murphy, Miss Emma Kent, Miss Maud Gerald, Miss Alice E. Wright and Miss Helen Baker.

Whittier school: Miss Barrett, Miss Irene Lowry, Miss Laura Johnson, Miss Elizabeth Somers, Miss Bessie Mulrine, Miss Mary Small.

Harrison school: Miss Henrietta Erickson, Miss Ethel Greene, Miss Bevan, Miss Laura Scott, Miss Anders, Miss Mary Benson, Miss Hart, Miss Alice Nelson.

Lowell school: Miss Amy Lowry, Miss Mary Walsh, Miss Mabel Early, Miss Fleda Caniff, Miss Erwin, Miss McDougal, Miss Julia Wahl, Miss McGrover, Miss Van Kleeck, Miss Elizabeth Walsh, Miss Howland.

All the new teachers are instructors of experience in graded schools, normal trained, and most of them with upwards of five years experience.

In the high school section John C. McGee comes from Reinbeck, Iowa and is a graduate of Charles City college and the Charles City Commercial college. He will teach the commercial department. Miss Bertha M. Rich, Latin instructor, is a graduate of the University of Minnesota and has taught in high schools at Sauk Centre, Minn.; Grafton and Jamestown, N. D.

Returns from the June state examinations show few failures among the papers sent down and about 100 more certificates in the four subjects required for the high school entrance than a year ago. About 600 certificates in arithmetic, grammar, geography and history were received.

During the summer many improvements have been made in the school buildings, the most important being new heating and plumbing in the Whittier school and the new auditorium in the high school building.

The new auditorium room will be a source of joy and pride to the high school pupils past and present for their hearts have been set upon it for a long time. The fine manner in which it has been fixed up even surpasses expectation and is a great credit to the young contractor, Vernie White, who did the work.

Duluth Diamond Drill Co. Has Set a Drill on the Farm of Ole Erickson Near Deerwood

Ole P. Erickson, former sheriff of Crow Wing, seems destined to change from a politician to a mine owner for this morning the Duluth Diamond Drill Co. set up a diamond drill in his back yard near Deerwood. Mr. Erickson is the owner of a fine farm near Serpent lake to the north of Deerwood and the iron indications were so strong that Andrew R. Davidson, of Davidson & McCrae, of Duluth, leased the property and set the drill at work.

Ole has many friends who will congratulate him if the drill uncovers sufficient deposits of ore to warrant the sinking of a shaft and the establishment of a mine.

J. N. BIEVER'S AUTO AND GARAGE BURNED

Early Morning Fire Badly Damages Garage at the Rear of 302 Northeast Fourth Ave.

FAMILY WAS NOT AT HOME

The Fire Department Responded Quickly and Checked the Flames From Spreading

Fire at two o'clock this morning badly damaged the barn situated at the rear of the J. N. Biever store and used by him as an automobile garage and also partially burned the auto housed therein. The fire is said to have started near the door of the barn.

There were none of the family at home and neighbors are at a loss to account for the fire. The auto is of the runabout type and of the Metz make.

The fire department made a quick run and soon had the blaze under control and prevented it from spreading. No hay or other material is said to have been in the barn.

STOMACH MISERY GOES

No Indigestion, Heartburn, Sourness, Gas or Dyspepsia Five Minutes After Taking Diapepsin

Every year regularly more than 8 million stomach sufferers in the United States, England and Canada take Pape's Diapepsin, and realize not only immediate but lasting relief.

This harmless preparation will digest anything you eat and overcome a sour, gassy or out-of-order stomach five minutes afterwards.

If your meals don't fit comfortably or what you eat lies like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion.

Get from your pharmacist a 50-cent case of Pape's Diapepsin and take a dose just as soon as you can. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, nausea debilitating headaches, dizziness or intestinal griping. This will all go and besides, there will be no sour food left over in the stomach to poison your breath with nauseous odors.

Pape's Diapepsin is a certain cure for out-of-order stomachs, because it takes hold of your food and digests it just the same as if your stomach wasn't there.

Relief in five minutes from all stomach misery is waiting for you at any drug store.

These large 50-cent cases contain more than sufficient to thoroughly cure almost any case of dyspepsia, indigestion or any other stomach disorder.

My dear Sir:

I do not understand why it should be necessary in the twentieth century to make any argument in favor of a practical education, or of the efficiency of the modern business college as a means to that end.

Everybody ought by this time to understand that business men and business women need a business education on the same principle that a doctor must have a medical education.

MIDWAY BETWEEN MINNEAPOLIS & ST. PAUL

SOO LINE TRAIN CARRYING DULUTH TRADE EXCURSIONISTS OVER CUYUNA IRON RANGE

Courtesy Duluth Herald:—

The Duluth wholesalers and jobbers, in their recent trade excursion, visited Aitkin, Crosby, Deerwood and Cuyuna on the Cuyuna iron range and were most favorably impressed with this section of the country on their journey. Short stops were made

at each place and the local business men interviewed.

At Deerwood George H. Crosby chartered the barge of the Ingalls Motor Boat Co. and took the whole party to Crosby where they saw the town and had a glimpse of the mines.

The picture above shows the style of trains which the Soo is running on the Cuyuna range and is the best evidence of the interest which the Soo has for this rapidly developing district of Minnesota. The trade excursionists numbered over 100 people.

WORMS

Doctors laugh at "worms." Mothers push-push worms. Fathers sniff at worms, but children go on suffering with worms just the same. Surprising how Kickapoo Worm Killer will knock "pig-headedness" out of some parents and make them ashamed of letting their children suffer needlessly. Try K. W. K. and you will believe in worms and quit knocking. Price, 25c.; sold by druggists everywhere.
